

MUHAMMAD ROFI PASHA HAIKAL

Informatics Fresh Graduate

Depok, West Java, Indonesia | +62 877-8390-0979 | hrofi79@gmail.com

SUMMARY

Informatics graduate seeking an entry-level Data Analyst role. Completed an academic data project covering data cleaning, preprocessing, feature engineering, and model evaluation on an 8,340-record dataset using Python (Pandas, Scikit-learn) and MySQL. Solid basics in statistics, SQL, and data mining. Also active as concert crew and ticketing staff at large-scale events, handling ticket verification and crowd coordination for thousands of attendees.

TECHNICAL SKILLS

Data Analysis: Data Cleaning, Data Preprocessing, Exploratory Data Analysis (EDA), Feature Engineering (TF-IDF), Statistical Analysis, Model Evaluation (Precision@K, NDCG@K), Reporting
Programming: Python (Pandas, NumPy, Scikit-learn), Java, SQL
Databases: MySQL, SQLAlchemy
Tools & Web: Flask, Git, REST API, Microsoft Excel, Google Workspace, HTML, CSS, JavaScript

PROJECTS

CINEMATCH: Movie Recommendation System (Content-Based Filtering)

Python, Pandas, Scikit-learn, NLTK, Flask, MySQL

- Cleaned and filtered 12.5M+ raw IMDb records into a final dataset of 8,340 movies (2000–2025); collected plot data from the TMDb API.
- Performed data preprocessing and feature engineering using TF-IDF on genre and synopsis, and measured item similarity with Cosine Similarity.
- Applied Bayesian weighting to adjust ratings by number of votes and combined scores using weighted scoring (30% genre, 70% synopsis).
- Tested 18 model configurations and evaluated results with 20 respondents, reaching Precision@10 of 0.660 and NDCG@10 of 0.985.
- Built the system as a Flask + MySQL web application (8 tables) with an admin dashboard for dataset statistics, model evaluation, and downloadable reports.

MI Fathurrahman: Academic & Administration System

MySQL, Web

- Built a MySQL-based system to digitize student and staff record management for a school.

EXPERIENCE

Event Crew, Usher & Ticketing Staff

2024 – 2026

- Verified and scanned tickets for up to 9,000 attendees per event and handled ticketing-device issues during entry.
- Managed crowd flow, provided gate and seating information, and assisted attendees with disabilities and pregnant guests.

Selected events:

- CNBLUE "3LOGY" Live World Tour, Usher, ICE BSD Tangerang, Apr 2026
- Dream Theater, Ticketing, Beach City Int'l Stadium, 9,000+ attendees, Feb 2026
- Bryan Adams "Roll With The Punches", Ticketing, Beach City Int'l Stadium, 7,000+ attendees, Feb 2026
- Blackpink "Born Pink" World Tour, Crew, Gelora Bung Karno, 60,000+ attendees, Nov 2025
- Scream or Dance, Crew, Beach City Int'l Stadium, 10,000–15,000 attendees, Oct 2025
- NCT Dream "The Dream Show 4", Crew, JIS, 70,000+ attendees, Sep 2025

EDUCATION

Bachelor of Informatics Engineering | Universitas Indraprasta PGRI, Jakarta

2022 – 2026

GPA: 3.60 / 4.00

Relevant Coursework: Data Mining, Statistics, Database Systems, Data Structures & Algorithms, Systems Analysis & Design, Web Programming, Project Management.

ADDITIONAL

- Seminar: "Artificial Intelligence: Challenges and Opportunities in the Era of Technological Transformation" (2025).
- Volunteer: Youth Ranger Indonesia; community sessions on safe internet use.
